THE VACCINE INSTITUTE. The following documents relating to the Vaccine Institute and the supply of lymph wore submitted to the Board :-

Sanitary Board Room, Hongkong, 4th February, 1893. Six,-I have the honour, by direction of the Sanitary Beard, to transmit to you the attached copy of a resolution having reference to the Vaccine Institute and the cultivation of vaccine lymph thereat which was unanimously passed at a meeting of | time. the Board held on the 2nd inst.

2. I am also directed to state that, is the epinion of the Board, the maintenance of the Institute is a matter of vital import-Buce insemuch as, judging from past experience, it is the only satisfactory plan of securing to the Colony a plentiful supply of pure and effective vaccine lymph. I am to invite attention to the fact that owing it is desired that no new pigsty in the to the large continuous traffic between Villagee should be licensed by the Sanitary the Colony and the mainland of China, where every winter, more or less, small-pox | approved by the Director of Public Works. disease prevails, the importation of smallper into the Colony, by both European and | obedient servant, native craft, is liable to occur at any time, and consequently it is very necessary that there should be not only a supply of reliable vaccine lymph in the Colony, but also the means of cultivating a practically unlimited quantity to meet such a demand as would undoubtedly arise if a serious outbreak of small-pox again occurred, and it is understood that the present Institute premises admit of this being done. Vaccine Institute appears to the Board to be the only place where Vaccine lymph can be cultivated in such quantity as is indicated above, and it is mainly for this reason that the Board expresses its opinion as to the necessity of effectively maintain-

ing the Institute. 3. I am further desired to add that in the opinion of the Board the sale of lymph for exportation should be so regulated as to of Public Works, susure a sufficient supply being kept on hand to meet the requirements of the Colony.

The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find Up the Kia-ling River.
